FIGURE 13A

A cross-sectional view of a multi-layered cylindrical component. The component consists of several concentric layers. The outermost layer is labeled 3005 and has a stepped profile. Below this is a layer labeled 3015. The innermost layer is labeled 3010 and has a central bore. A dashed line indicates the center of the bore. Other features include a flange-like structure labeled 3025, a recessed area labeled 3020, and a small protrusion labeled 3030. A label 3035 points to the outer edge of the component.
